Muslin Underwear selling greater by more than double a year ago. No doubt you wonder why until you can compare values with what it has been your fortune to obtain heretofore, and, as usual here, skimped sizes, yellow muslin, poor embroideries and poorer workmanship find no place. The results Saturday and Monday show conclusively the fact that the people know when and where to buy their undermuslins. Quantities still plen-

The Cambric Drawers with wide umbrella flounce, at 24c per pair, went by the thousands-not by the hundreds.

The 39c, 50c and 75c Gowns were the most wonderful values ever offered you in any underwear selling known to the Store's history. In the finer qualities the money saving was even more apparent.

Gowns at 98c, \$1.19, \$1.39 and up to \$2.50. Goods that would have attracted your attention at one-third more than these prices. Now for the length of this sale-Saturday of this week will close this, which we predict the most successful January sale. Buying now is a question of economics. Every garment offered you this week will be advanced in price, beginning Monday next. Can you afford to wait? We think not. At least, come in, see the snowdrifts of underwear; buy or not, but see the values, note the quality, the styles, the fabrics and the workmanship. It will be a revelation to you, providing you have been in the habit of making your own underwear. Third Floor.
